Fuel Injection Systems and Parts

Micro Pilot Injector

For gas and dual fuel engines

Well validated design

Possible Application field:

- Maximum system pressure up to 1200bar
- Maximum Injection amount up to 150mm³/shot
- Minimum Injection amount of 20mm³/shot

Currently customer in use for:

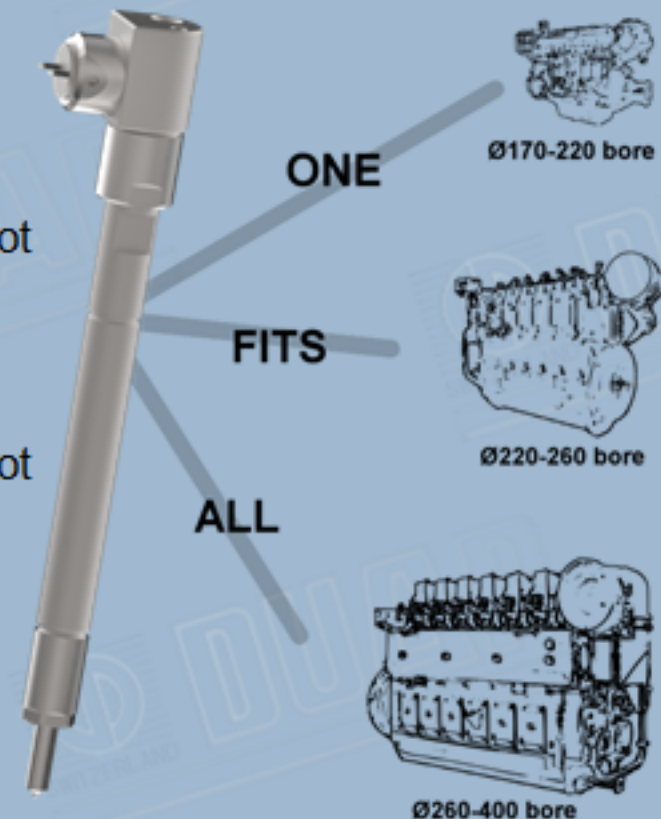

- Maximum system pressure up to 1200bar
- Maximum Injection amount up to 100mm³/shot
- Minimum Injection amount of 20mm³/shot

Single Injection

Diesel, MGO and MDO

Solenoid actuator

Uncooled nozzle.
