Applications

Posted on 23. July 2013

Trucks

DUAP fuel injection systems and components are developed and built for..

- Trucks
- Tractors
- Earth moving and construction machines
- Other applications

Diesel Locomotive

DUAP-injection unit

for a medium-speed 4-stroke Diesel engine

Container Vessels

Cruise Ships

Stationary Applications, Gensets, Power Stations

Two stroke engine with an output of 35'000 kW, equipped with DUAP injection systems

Aerospace Applications, Flight engines, Drone engines

Two stroke Diesel engine. Specially designed nozzle holder and nozzle
